AND GLORIA MOLINA**

MAY 1, 2007

The Los Angeles County Board of Supervisors has assumed an active leadership role in annually proclaiming May as “Women’s Health Month” to highlight the status of women’s health and to remind women to pay attention to their own health as a healthy lifestyle and regular screenings save lives. This year, the Board is serving as honorary chairs and co-chairs for a Women’s Health Policy Summit convened by the Office of Women’s Health to bring together 300 women’s health leaders to develop policy recommendations to improve the health status of women, with a focus on low income women and women of color.

On Saturday, May 12th, the day before Mother’s Day, the Office of Women’s Health is also coordinating a combined Department of Public Health and Department of Health Services team for the Fourteenth Annual Revlon Run/Walk for Women which will be held at the Los Angeles Memorial Coliseum. Proceeds will support women’s cancer research and programs in Los Angeles County. The participation of County employees in the Run/Walk for Women will be invaluable in showing support and helping to fight women’s cancers that affect so many in Los Angeles County.
